

The 13th Congress of Asian Society for Pediatric Research - Active e-Poster Presentation Programme

Date	Session	Time	Kiosk	Category	Abs #	Presenter	Title of the Abstract	Country	Page #				
6 Oct PM	3	16:30-18:00	A	Immunology, Allergy & Rheumatology	18	Su Boon YONG	Adult Outcome of Juvenile Idiopathic Arthritis: A Nationwide Population Retrospective Cohort Study in Taiwan	Taiwan	185				
					86	Wiparat MANUYAKORN	Needle length for epinephrine prefilled syringes in children and adolescents	Thailand	123				
					124	Hisanori NISHIO	Impaired cellular immunity correlates with severe respiratory syncytial virus, rotavirus and varicella-zoster virus infection among patients with primary immunodeficiency	Japan	163				
					133	Wei Te Lei	The incidence and risk factors of recurrent HSP in children: estimation using a 16-year comprehensive nationwide database	Taiwan	185				
					207	Dik Wai Anderson Luk	Type I and III Interferon Production Is Impaired in Response to Oral Poliovirus But Not to H1N1 Influenza Virus in X-linked Agammaglobulinemia	Hong Kong	123				
					209	Ke NI	IDO contributes to the pulmonary immunosuppression and the alleviation of pulmonary fibrosis induced by human mesenchymal stem cells in humanized mice	Hong Kong	123				
					214	Ki Pui LAM	Development and Maturation of Polyfunctional Epstein-Barr Virus Antigen-Specific CD4+ and CD8+ T Cell Responses in Children with Infectious Mononucleosis and Primary Asymptomatic	Hong Kong	124				
					231	Amit RAWAT	Genetic Basis of Chronic Granulomatous Disease in North India	India	149				
					232	JUNKAI KAO	The Plasticity of Innate Immune Responses to Lipopolysaccharide in Iron Dextran-Overloaded Mice	Taiwan	124				
					1251	Zhenni ZHU	Effects of short chain fatty acids and their receptor signaling pathway on intestinal barrier function and regulatory T cells in food allergic mice	China	126				
					1703	Lin KUI	Immunosuppressive Properties of hTERT Mesenchymal Stem Cells (htMSC)-Derived Extracellular Vesicles on Human Plasmacytoid Dendritic Cells (pDCs) and Its Therapeutic Potential in Autoimmune Diseases	Hong Kong	126				
					1708	Chengzhong ZHENG	Effect of Adipose-Derived Stem Cell and Non-Methylated CpG-ODN on Peripheral Blood CD4+CD25+ Regulatory T Cell in Young Mice of Food Allergy	China	127				
					1754	Charmaine JS Kung	B regulatory cells in Children Atopic Dermatitis	Hong Kong	127				
					1769	Chiung-Hui HUANG	Comparative analysis of the profiles of short chain fatty acids in stool samples of healthy infants and infants with eczema	Singapore	128				
	1791	Deepti Suri	Thrombocytopenia in Cytomegalovirus Infection Can Lead to or Mislead From the Diagnosis of Wiskott-Aldrich Syndrome	India	128								
	4-1	16:30-17:20	B	General and Community Paediatrics	72	Adriana ARDY	Association between Breastfeeding in Infancy and Cognitive Function of Adolescents in Santiago, Chile	Singapore	143				
					85	SIYU DAI	Association of Household Tobacco Exposure in Hong Kong Young Children Under 2 Years of Age with Lower Family Socioeconomic Status and Medical Service Utilisation	Hong Kong	143				
					250	Frederick K HO	A Sports Mentorship Program Improves Adolescent Mental Health and Physical Fitness: A Randomised Controlled Trial	Hong Kong	144				
					287	Gilbert T CHUA	Accident & Emergency Department Attendances and Survival Patterns Among Children with Down Syndrome: A Population-Based Cohort Study Follow-Up From Birth	Hong Kong	145				
					288	Tsz Suen TUNG	A Scoping Review of Injury Outcome Indicators: Implications For Injury Surveillance	Hong Kong	186				
					307	Frederick Ka-wing HO	Effect of Socioeconomic Disparity on Childhood Injury in Hong Kong	Hong Kong	144				
					423	Yasuhiro ONOE	Instrument-based visual screening of 3-year-old children in Japan	Japan	187				
					1508	Prof.Dr.Med.Toshiko Sawaguchi	Assimilation of reality of health index in national health promotion in Japan -as a prospect of flame-work analysis and reaction of external causes	Japan	122				
					4-2	17:25-18:00	B	Cardiology	36	LING-SAI CHANG	CYP2E1 Gene Polymorphisms Related to the Formation of Coronary Artery Lesions in Kawasaki Disease	Taiwan	129
									183	Jun MUNEUCHI	Increased pituitary volumes in Fontan patients: the other portal circulation	Japan	130
	223	Kenichiro MIURA	Mechanism of hyponatremia in Kawasaki disease: A role of nonosmotic ADH secretion and salt loss	Japan					144				
	278	Sit-Yee Kwok	Ventricular Mechanics in Adolescents and Adults Late After Repair of Subarterial and Perimembranous Ventricular Septal Defects	Hong Kong					130				
280	Sit Yee KWOK	Clinical and Genetic Profile of Congenital Long QT Syndrome in Hong Kong - 18-year Experience in Paediatrics	Hong Kong	131									
286	Masaru Kobayashi	The number of lymphocytes can be a IVIG treatment failure predictor in Kawasaki Disease as well as Neutrophil-lymphocyte ratio, platelet lymphocyte ratio	Japan	125									
390	Kan Zhang	selection of endotracheal tube cuff for children with congenital heart disease based on an ultrasound-based linear regression formula	China	187									
878	Yuan JIANG	Waist-to-Height Ratio Remains an Optimal and Easier Index for Indicating Obesity-related Cardiovascular Risk in Children and Adolescents	China	136
